Freiberg participating for the first time! - fclr2021

## AGAINST RACISM – FESTIVAL CONTRE LE RACISME

From June 15 to July 15, 2021 the “festival contre le racisme” will take place nationwide. It’s a campaign against racism and misanthropy that has been carried out annually since 2003. This year's theme is “Decolonize the universities! Decolonize your knowledge and your anti-racist practice!” And for the very first time, we, the StuRa Freiberg, are also part of the festival. The planning has been going on since the beginning of the year. There was plenty of work to share for our part of the festival with various student councils and individual departments from the universities in Saxony and Saxony-Anhalt. You can look forward to concerts, panel discussions, seminars, lectures, workshops, simulation games, interviews, readings, art and much more - of course, everything online and without the flaws of party politics.

## SUPPORT THE DEMOCRATIC SELF ADMINISTRATION

It’s your choice! The elections for the faculty student body councils (FSRs) take place at EAC (Neue Mensa) from 1st to 3rd June, everyday from 10 a.m. to 4 p.m. It’s your choice who will represent your interests within the faculty. The process of digital teaching, the event culture during the Corona Crisis, networking with other students, the orientation days for freshmen to the faculty or the organization of excursions and conferences - all these are topics that the student councils deal with during their legislature. Very soon you will find information on all candidates on the respective websites and Instagram pages of FSRs and Stura.

You think you won't know anyone anyway and therefore don't have to vote, right? Totally not! Your student representatives need your votes in order to be legitimized as a democratic committee so that when the time comes they can stand up for student interests and have your back at a higher level, if necessary.

## We present to you a colorful campus!

### AGAINST FOOD WASTE – INTRODUCTION OF YOUR “FAIRTEILER”

The so-called “Fairteiler” was installed at Neue Mensa (foyer, entrance area, back wall) in the beginning of May. There you can provide food that you can no longer use for your fellow students and coworkers. Pinned on the refrigerator, you can also find a list of foods which can or cannot be shared. Please adhere to the list!

If there is only a giant void in your refrigerator, or if the tomato sauce can still use a little pep, you can now have a short look at the “Fairteiler”, which is available during the opening hours of the Neue Mensa building (Mon-Fri. 9 a.m. - 2 p.m.). We and our environment work group (AG Umwelt) hope you enjoy sharing and saving food.

### FROM THE SENATE

You haven't paid attention to the last meeting of the Senate on April 27th? No problem, we listened carefully for you. The following results are particularly interesting:

*Free attempt remains:* Even in the summer semester of 2021, you can reject exam results without affecting the number of exam attempts you still have.

*Digital exams:* All exams will take place online, exceptions must be requested two months in advance.

We are really happy about these decisions and hope for true fairness and continued better planability in our university's teaching.

### TEN EVENTFUL DAYS FOR YOU - STUDITAGE 2021

After the Covid-Crisis messed up the planning of last year's events, they are finally back: the “StudiTage” –

Ten varied event days are on the agenda from 8th to 17th June, all under the main theme “Colours of Campus”. In addition to several concert streams and the traditional pub quiz, sports, career and creativity are also incorporated in the program. For example, a poetry slam, a talent show, an exchange with companies, a DJ stream, a rocket league tournament and much more are being planned! From nerd to poet, from party people to couch potatoes - this year there is fun for everyone.

You will find the detailed program very soon on the websites of the student council, the university, Alte Mensa and EAC, on all Instagram channels and Facebook pages, in Unirundmail and on posters, banners and screens across the campus. Literally everywhere, because all the prominent names of campus culture are also on board: the university itself, including the career center and university sports center, Studentenwerk, all the student councils as well as the clubs and initiatives like EAC, Alte Mensa and TUgether e.V..
